Tested specimen:

It were submitted for testing 2 specimens, consisting in electrical action striking plates, with the internal references FEV002A/13 and FEV003A/13, which had the following costumer reference: **Nuova 500**.

Performed tests and results:

The tests performed to the FEV002A/13 specimen and its results were the following:

Test	Classification
Resistance to corrosion, temperature and humidity (EN 14846:2008; IEC 60068-2-1; IEC 60068-2-2; IEC 60068-2-30)	Grade M (-25 to 70 °C; 240 h of corrosion)
Corrosion resistance (EN 1670:2007)	Grade M (240 h of corrosion)

The test performed to the FEV003A/13 specimen and its results were the following:

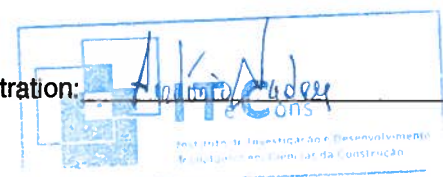

Test	Classification
Durability of electrical operated latch action	Grade C (200 000 cycles without force in latch)

Note: This report is not a replacement for the individual test reports which served as its basis. For a complete analysis and interpretation of the results see individual test reports.
